PROFILE

As a 4th-year Industrial Product Design student with a background in the health sector, I am confident in designing manufacturable and aesthetically compelling designs and 3D models of any imaginable form. I am proactive in transforming existing situations into desired outcomes. In team settings, I have a talent for inspiring and orchestrating stakeholders to think and act differently, similar to the role of a creative art director. Currently, I am conducting a team research in collaboration with VESTEL and TÜBİTAK to develop guidelines for the design identity of electric vehicle charging stations.

SKILLS

- Rhinoceros 3D
- CATIA V5
- Keyshot 3D Rendering
- V-ray 3D Rendering
- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Infinite Painter
- Video Editing
- Microsoft Office

LANGUAGE

- Turkish - Native
- Englisih - C1 YÖKDİL (Higher Education Institutions Foreign Language Exam) : 97.5/100

EDUCATION

<i>Istanbul Technical University</i>	2021-2025
Industrial Product Design GPA: 3.4	
<i>Hacettepe University</i>	2017-2020
Physical Therapy & Rehabilitation GPA: 3.3	
<i>Hüseyin Avni Sözen Anatolian High School</i>	2012-2017

CERTIFICATE

<i>Certificate in 3D Printer Operation</i>	29/01/2023
ISTESOB - Istanbul Union of Tradesmen and Craftsmen	
<ul style="list-style-type: none">Participated in a 3D Printer Operation course, where I learned 3D printing technology, developed troubleshooting skills, mastered printer settings, practiced post-processing techniques, explored various printer types, and printed prototypes of my designs.	

EXPERIENCE

<i>TÜBİTAK 2209-B - Support Program for University Students' Research Projects on Industry</i>	2024-2025
Participant, Research Proposal Accepted	
<ul style="list-style-type: none">Research is being conducted in collaboration with VESTEL to publish a guide consisting of criteria for the design identity of electric vehicle charging stations."	
<i>Intern Physiotherapist at Hacettepe University Hospital</i>	2020-2021
<ul style="list-style-type: none">Participated in therapy of patients in various health units such as; neurologic, pediatric, geriatrics, rheumatologic, dysphagic dysfunctions units etc.	

INTEREST

- Acrylic painting
- Retro-futuristic & Post-apocalyptic & Sci-Fi movies
